

YOUR SOLUTION IN FLOW CONTROL

We offer products and systems to control all kind of media and specializing in the control equipment for Oil & Gas area.

Our staff & OEM partners are your best solution in flow control.

WHO WE ARE?

MS Tekhnomarket LLP was established in 2006 as a supply chain and engineering company specializing in Oil & Gas equipment and flow control solutions.

Today, we operate as a **trade house and a leading global distributor of industrial products, tools, services, and integrated supply solutions**, supporting major Oil & Gas and energy projects in Kazakhstan.

Over the years, MS Tekhnomarket has built a strong reputation as a professional and reliable partner for both customers and international OEM manufacturers.

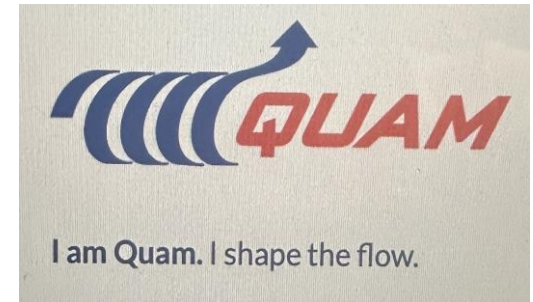

We are an official authorized partner and distributor of leading international brands, including:

- **SAMSON Group (Germany)**
- **QUAM Controls S.R.L**
- **AUDCO ITALIANA (All types of valves with fast delivery option)**
- **JH Valve (China)**
- **Any brand (OEM) as per client request**
- **other equipment spare parts and tools**

for the Oil & Gas and energy market of Kazakhstan.

Our key strength is our highly qualified local team, providing immediate technical and commercial support. Our engineers are trained by OEM partners and maintain direct communication with OEM engineering teams, ensuring fast response and optimal technical solutions.

Head Office: Almaty
Regional branches: Aksai, Atyrau, Aktau

AUDCO ITALIANA
Your Valve Specialist

WHERE WE ARE GOING ?

Our mission is to be a reliable long-term partner, providing high-level technical expertise and strong engineering capabilities to deliver optimal flow control solutions. We continuously invest in the development and training of our local team and expand our service portfolio to build strong local content capacity, with a special focus on the West Kazakhstan region, supporting our OEM partners in covering the entire Kazakhstan market. Our strategic goal is to establish a comprehensive Global Flow Control Management system and maximize localization of services and products. We differentiate ourselves through a personalized approach, deep product expertise, and strong customer focus. By working closely with our clients and applying continuous innovation, we deliver efficient and tailored solutions. Our strength lies in our ability to think “outside the box”, enabling us to develop customized solutions for complex technical challenges.
